[Wayne Peate](#), Board Member

The Board is composed of five district residents each elected to four year terms. Members serve without pay. The Board is responsible for educational policies and financial plans for the district, within community resources. The Tanque Verde Board of Governors, among its other duties establishes policies, gives direction to the school district and ensures effective management of our schools. The governors derive their authority from Arizona Revised Statutes 15-341.

The management of the school district is carried out through the Superintendent and her management team. The Superintendent is responsible to the Governing Board.

The decisions made by the Governing Board affect our children's education and future. The quality of public education depends on citizens and school staff pulling together to design programs to meet the needs of our students.

Tanque Verde Elementary School first began in 1922 when land was donated by a local family. In 1923 a school house was constructed. the original site was used until 1995 when the location became the Lew Sorensen Center designed to serve the community and house the school district resources.

The new Tanque Verde Elementary School, constructed in 1995, is located at 2600 N. Fennimore on a beautiful 40-acre site. Student population is usually around 640 to 650 students. The average class size is in the low to mid-twenties. We have over 40 teachers and an entire staff of over 70. We are pleased that our district is supportive of special classes such as art, music, PE, Spanish, library, computers and instrumental band. We have a computer lab and a science lab. We have a full time school nurse on site.

Tanque Verde has a very supportive Parent Teacher Group, who is very active in our school. Volunteerism is strong in our classrooms and fund-raising, while quite successful, is one as gently as possible, focusing on several major events rather than many smaller ones.

We are very proud of our students and our community!

Agua Caliente Elementary School is located on a seven acre campus on Limberlost Road, less than one mile east of Melpomene Way. In Spanish, Agua Caliente means "hot water." The

**school and nearby Agua Caliente Wash are named for the local hot springs.**

**ACES, as it is commonly known, currently has 403 students enrolled in grades K-6, a teaching staff of 30, and average class sizes in the mid-20's. Instructional aides are employed to assist classroom teachers. A school nurse is available during school hours to assist students with medical and health needs. An ala carte style lunch program is available. There are many opportunities for parents to be active participants in school programs.**

**State of the art facilities, including a hands-on science lab, computer lab, exploratory nature trail, and soon to be completed broadcasting capabilities are the setting for a strong and diverse instructional program. In addition to the core curriculum, students participate in music, art, band, P.E., Spanish and computer classes on a regular basis.**

**In the special education program, students with specific learning difficulties have individualized education plans designed to meet their specific learning needs. All classes are taught in a cross-categorical setting and students are mainstreamed according to their needs.**

**It is important to note that students from ACES traditionally score above the national, state, and county norms each year on the Arizona required standardized tests.**
